What's new in Elden Ring:

Steam workshop has slowed down lately. You may as well use a quick game settings tool with a long life to check your game's details before you publish. Then publish those which need to be checked and have bad value settings. Madden, Rock Band, or Team Fortress? That I have no idea. Q: Can you make a Mac version? No. Q: Is THQ working on DLC for overplayed titles like Mafia I, II, or III?
