**is FINALLY here. Tarnished Champion, it's time to break down some reviews and see just what we have on our hands. This game's story is one that has changed a few times as it goes and one that's so far not completed. So without further ado let's jump into it. STORY - 10/10 Unlike the previous version, if this game has a story, it's one that's fairly well written. Tarnished Champion's story has a lot of small personal tales that adds a sense of feeling for those involved in this story. And because of that, it brings a sense of realism. Art/Craft - 8/10 There are some great looking areas in Tarnished Champion, be it the arena or the various dungeons. But what's a game without a good dungeon? However, just like previous games, there's not a ton of things to see. If you're looking for world-building, look elsewhere. Gameplay - 10/10 So this is the one section where I'll drop a number. And it's a number that's**

---

**gotten higher as the game has progressed. It's been very fun to play with my friends and and see how the story plays out. There are abilities that've been added in that are fun and a little creative. The combat's still as great as the previous games as well. I'd definitely say this is where the game has the upper hand. OVERALL - 9/10 Would I recommend it to the casual gamer, sure. Would I play it over other games, probably not. It's just a game that's more about the story than what you do in the game. If you're looking for a little bit of combat action, then this isn't the game for you. Presentation - 8/10 I'll go with this one as well. Tarnished Champion is a game that's a little rough around the edges.**
